[Did you move or change your email address or phone number?](#)

It's important to keep your contact information up to date in case we need to reach you regarding your account. It's especially important if your account becomes compromised and our Fraud Department needs to reach you.

[Important reminders about protecting your account funds from scammers](#)

You should never share your username, password or PIN with anyone. If someone wants to send you a check to deposit and asks you to send money back, it is fraud and you will be left on the hook. If you have a Zelle account, only use it to send money to those you trust like friends and family because you can't get it back once you've sent it. If something seems too good to be true, it likely is. Scammers are everywhere and getting better everyday so please be vigilant in monitoring your accounts. [PR #13987](#)
